A New and Enlarged Edition of this Standard Work has now been issued. The text has been thoroughly revised, in part re-written, and brought entirely up to date. The Work now consists of upwards 900 pages, medium 8vo, being 100 pages more than the previous Edition, of which 50 are devoted to additions to the body of the work, and 50 to Reports of Cases.

The Legal Decisions referred to in the Work are brought up to October 1904.

Special attention has been devoted in this Edition to the Accounts of Local Authorities and their Audit, Depreciation, Sinking Funds, &c.

BANKRUPTCY. Second and enlarged Edition. Price 7s. 6d.

net. By T. M. STEVENS, D.C.L., Barrister-at-Law.

A demand has arisen for a short work on the above, whilst treating the subject from a legal point of view, will still be of use mainly to Chartered Accountants and others. The general outlines of the subject, *i.e., the text of the Acts, as explained by leading cases, is what is wanted, and what this work has endeavoured to give.*

THE BANKRUPTCY TRUSTEE'S ESTATE BOOK.

Second Edition. Price 4s. net.

Compiled by LAWRENCE R. DICKSEE, M.Com., F.C.A. Author of "Auditing," &c.

This Book contains the whole of the information likely to be required by Trustees in Bankruptcy in such a form that in conjunction with the "Record Book" it provides a complete statement of all the facts relating to any particular estate, entirely doing away with the necessity for memorandum and loose sheets, which are so frequently lost.

BOOKKEEPING FOR COMPANY SECRETARIES.

Third Edition. Price 3s. 6d. net. By LAWRENCE R. DICKSEE, M.Com., F.C.A.

This Work (which is founded upon a course of lectures delivered under the auspices of the Council of the Institute of Secretaries) deals very fully with those questions in relation to Bookkeeping, a knowledge of which is essential upon the part of every Company Secretary. It will, therefore, be found of the greatest value to all who occupy—or expect to occupy—that position, and also to all Accountant Students.

BOOKKEEPING FOR ACCOUNTANT STUDENTS.

Fourth Edition. Complete, with Index, 10s. 6d. net. By LAWRENCE R. DICKSEE, M.Com., F.C.A. (of the firm of Sellars, Dicksee & Co.)

COST ACCOUNTS: AN EXPLANATION OF PRINCIPLES AND A GUIDE TO PRACTICE Price 5s. net. By L. WHITEM

HAWKINS, Chartered Accountant.

Contains an explanation of the general principles governing the ascertainment of manufacturing cost, with full and lucid instructions for the practical application of those principles, and is illustrated by an Explanatory Diagram, a Set of Forms, and a Worked Example.

The Forms are specially bound in a novel and ingenious manner, so that, while forming part of the volume, they are contained in a smaller book which can be opened out to lie side by side with the text. This method affords a facility and convenience in reference which cannot be obtained in any other way.

PREFACE.

THIS work — which may be regarded as a supplement to the author's *Bookkeeping for Accountant Students* — has been compiled to meet the requirements of those accountant students who desire a well-selected series of exercises to work through, with a view to testing their practical knowledge of bookkeeping, preparatory to presenting themselves for examination by the Institute of Chartered Accountants or other similar institutions.

Bearing in mind the special circumstances under which these exercises are likely to be used, it has been thought best to select them chiefly from examination papers that have been actually set in the past, rather than to compile an entirely original set of exercises which would in themselves afford no basis as to what class of questions the candidate might expect. The selection has, however, been carefully made, and certain original questions have been added in order to make the field covered by the whole series more complete, the aim of the work, as a whole, being—as far as possible—to afford to accountant students a graduated and educational course upon bookkeeping.

The “skeleton key,” which is added, will, it is thought, add greatly to the completeness of the work, and also afford facilities to those students who are unable to obtain the services of a Coach.

13.—Thomas Jones owes £300 to Dixon & Co. If he pay prompt cash he is entitled to $2\frac{1}{2}$ per cent. discount. He, however, pays by bill at three months, but is allowed by Dixon & Co. to treat the transaction as if he had paid prompt cash, and he, therefore, deducts $2\frac{1}{2}$ per cent. discount from the amount due, and adds interest at the rate of 5 per cent. per annum and stamp to the amount of the bill. Make all the entries in Dixon & Co.'s Ledger regarding the settlement.

14.—On closing the books of a firm the Trial Balance showed the following debit balances:—

A. & Co.	£1,260
B. & Co.	740
C. & Co.	600
D.	200

Since the date of the Trial Balance A. & Co. have become bankrupt, and their creditors have received 5s. in the £, and are to receive a second and final dividend of 2s. in the £.

The firm decide to create a reserve of 10 per cent. in respect of B. & Co.'s debt, and a reserve of 20 per cent. in respect of the amount due from C. & Co. in consequence of disputes as to damaged goods. D. has absconded, and it is decided to write off his entire indebtedness as being irrecoverable.

Draft Journal entries carrying out the above, and state the amount which will be charged against the Profit and Loss Account.

They dissolve partnership and realise the assets of the firm, discharging the liabilities out of the proceeds.

What will be the share of each partner ?

- (a) If the assets realise the amount stated and partners share profits equally.
- (b) If stock realises only £2,000, and sundry debtors £1,800, and partners share profits equally.
- (c) If assets realise as shown in (b), but partners share profits thus : A. five-twelfths, B. one-third, and C. one-quarter.

29.—J. Hall, H. Birkle, and B. Fast are partners; their interests in the profits of the firm are one-half, three-eighths, and one-eighth respectively. On December 31st 1892 the partnership terminates and the Balance Sheet is as follows:—

Sundry Creditors...£3,550	Cash at Bankers... £250

On June 30th 1893, when the affairs of the firm have been liquidated, it is found that the assets have realised £400 less than the value on the Balance Sheet of December 31st 1892, viz., Book debts £100 less, lease £150 less, and Plant and Machinery £150 less.

The expenses of winding up the business amount to £90, and the partners are (by special agreement) entitled to 5 per cent. per annum upon their Capital Accounts. Show how to close the books at 30th June 1893, giving each partner's account with the balance ultimately found payable to him.

30.—Edwards, Hotham and Walsh, establish a business as co-partners on 1st January 1885, each to draw a like small

sum per annum for services, and to share profits according to capital, and according to the time the capital is in the business. On the 1st January Edwards pays in £4,000; on the 1st April Hotham pays in £3,000; on the 1st July Walsh pays in £2,000; on the 1st October Edwards pays in further £1,000. The net profits at 31st December 1885 are £1,500. State what each partner receives.

31.—A. & B. are partners dividing their profits in the proportion of three-fourths and one-fourth. A.'s capital is £12,500 and B.'s £7,500. They dissolve partnership, and realise the assets standing on the Balance Sheet as follows:—

33.—John Jones and William Smith, each carrying on separate businesses as merchants, amalgamate their concerns under the name of Jones, Smith & Co., as at 30th November 1893, to be carried on after that date in John Jones' premises. Jones is to receive credit for £4,000 for goodwill, and 10 per cent. is to be written off his book debts as "Bad Debts

Reserve." Smith's liability to the Royal Bank is paid off by Jones out of the latter's private funds, and he receives credit therefore. Jones owns the property in which he carries on business and in which the business of the new firm is to be carried on, whilst Smith rented his, and all rent and taxes are paid up to date.

The following are their respective Balance Sheets at date of amalgamation :—

Make a Reserve of £21 for Audit Fee, and £25 for Repairs. Interest on Mortgage has been paid to December 31st 1896.

Two tenants, G. F. and R. F., at £180 a year each have paid rent to March 31st 1897. The only other tenants of the company are those mentioned in the Trial Balance. Provide for a dividend of 6 per cent. on the capital, and carry the balance to the Reserve Fund.

37.—C. and D. enter into partnership for six years, sharing profits and losses equally. C. puts in capital £2,000, and D. £500, accounts are made up periodically, and profits put to credit of Capital Account, and drawings debited to the same for the six years, when C.'s capital is £3,000 and D.'s £300. The partnership deed provides that at the end of the partnership the assets, after paying debts, should be divided according to the partners' shares and interests therein. The liquidation after paying debts leaves only £1,500 to pay out the capital of £3,300. Adjust the account between the two partners.

38.—Y. and Z. commence trading in partnership on July 1st 1894 with capital £8,000, of which £5,000 are brought in by Y., and £3,000 by Z. They take 5 per cent. per annum interest on capital, and profits and losses are divided as follows:—Y. five-eighths, Z. three-eighths. On 31st December 1894 they take stock and find their Trial Balance as follows:—

Write off 25 per cent. from goodwill, allow 5 per cent. for discount on amount of debtors, and credit income tax reserve with 8d. in the £ on the taxable profit for the year. Credit Loan Account with a year's interest at 5 per cent. Prepare Profit and Loss Account and Balance Sheet.

40.—E. F. & G. H. have traded in partnership for some years, and at January 1st 1893 their capitals were: E. F. £4,400, and G. H. £800. During that year they lost £1,180, without reckoning interest on capital, which, according to their articles of partnership, has to be taken into account at 5 per cent. per annum. They divide profits and losses, E. F. five-eighths, G. H. three-eighths. Their drawings during the year have been, E. F. £560, G. H. £400. Show the position of each at December 31st 1893, and show how you can prove the result.

41.—T. S. & Co. have made profits during 1894, £2,065. The firm consists of T. S., who had capital on January 1st 1894, £8,000, and W. K., who had £5,600, and brought in £1,200 on March 31st. They take interest at 5 per cent. per annum on their respective capitals, and W. K. has a salary of £260 for management. T. S. takes £400 per annum for rent of the premises in which the business is carried on.

After deduction of these the balance is equally divided. State the Profit and Loss and Capital Accounts.

42.—The profits of a partnership consisting of X. Y. & Z. are found, at December 31st 1893, to have amounted to £2,200.

On January 1st they had capital as follows: X. £6,400, Y. £4,800, Z. £4,800. The drawings have been by X. £480, Y. and Z. £360 each, on which no interest is chargeable. State the Capital Accounts, allowing interest on capital at 5 per cent. per annum, and dividing the balance as follows:— X. four-tenths, Y. and Z. three-tenths each. On January 1st 1894 they agree to take into the firm A., who is to have one-sixth of the profits. What amount must he bring in to entitle him to such a share on a par with the capital of the others at December 31st 1893, and what will be the new proportions for division?

43.—A., B., and C. commenced business in partnership on 1st January 1888 with a capital of £5,000 each, and on the 31st December 1894 the capital stood in the books as follows:—

A., £6,478. B., £5,045. C., £4,270.

The partnership deed provided that profits and losses were to be borne equally. Early in 1895 the business was wound up and realised after paying all creditors and expenses £14,380. How should this sum be divided among the partners? And prepare accounts showing how you arrive at the amounts.

44.—The firm of R. W. A. & Co. consists of R. W., whose capital is £9,000, and G. A., whose capital is £6,000. They agree to receive a third partner, C. S., with £6,000, of which one-fourth is to be reckoned as payment for goodwill, and to be added to the capital of R. W. and G. A. in proportion to

the amounts thereof. In what proportions would you divide the profits, so that each should receive a due share in proportion to the capital of each?

45.—In a firm consisting of three partners, A. and B. had at their credit on January 1st 1892, £3,543 each. C. had drawn in excess, and had £243 at his debit. On June 30th the half-year's profits amount to £1,062 divisible in equal shares. A. and B. had drawn £240 each, and C. had drawn the same, with £60 extra at March 31st and £30 on June 30th. Charge and allow interest on capital and on C.'s extra drawings at 5 per cent. per annum, and make up the Capital Accounts.

You are asked to make out the Trading and Profit and Loss Account, showing gross and net profits, with the average cost and profit per ton to the third decimal, and to prepare the usual Balance Sheet for presentation to the Shareholders. Due provision has been made for depreciation, and the output for the year has been 1,055,144 tons.

51.—A. B., London, sells goods to C. D., Calcutta, for payment in London on the average due date. The sales are due—1st July, £900; 16th July, £1,100; 20th August, £1,300. State the average due date.

52.—Prepare a Bill of Exchange at three months, drawn by Messrs. Duval, Paris, on John Smith, London, on January 1st 1893 for £436, duly accepted, and assume that two months after receiving the bill Messrs. Duval discount it at the Comptoir d'Escompte at the rate of 5 per cent. per annum, on the bill becoming due it is presented and returned unpaid.

Show the entries as they will appear in the books of John Smith, using dates.

53.—What is an accommodation bill? A. is a merchant who has transactions with B. in accommodation bills. Give the entries in the books of B. which you would make in respect of the following transactions:—

On January 1st 1894 A. draws on B. at three months for £500, and discounts the acceptance with the London and County Bank, Lim., receiving £495 in cash, of which he hands £247 10s. to B.

On 31st March, in order to provide funds to meet this bill, B. draws on A. for £550 at three months, and discounts the acceptance with Brown, Janson & Co., receiving £545 in cash, of which he hands £22 to A.

On the 29th June A. is made a bankrupt.

54.—On the 1st June 1894 A. drew on B. for £300 at three months' date, the arrangement between them being that they should share equally the proceeds of the bill, viz., £285 (the person with whom the bill was discounted having charged

£15 for discount), and that A. should provide B. with half the sum required to meet the bill when due; on the bill falling due B. met it, but A. was unable to contribute his share. Show the entries as they should appear in the books of A. and of B.

55.—Mr. Henry Fox, of Messrs. Fox & Crane, died on the 31st January 1893. Under the partnership agreement his executors are entitled to two years' purchase of his share of average profits as goodwill. Goodwill and capital are to be repaid by twelve quarterly instalments, bearing interest at 5 per cent., for which Crane is to accept bills. Assuming the amount to be paid for goodwill at £3,500, show—

- (a) The amount for which each bill must be drawn.
- (b) The entries in the books of Joseph Crane who thereafter carries on the business of the firm alone.

What are the amounts at the credit of their accounts respectively at 30th November 1893 without taking interest into account, and show how the amounts are arrived at?

57.—P., Q., and R. have dissolved partnership, and after realising all their assets they find they have for division the sum of £12,000. The capital accounts of the respective partners at the dissolution were in credit P., £4,000; Q., £3,000; R., £2,000. P. had advanced to the firm £500 apart from his capital, and this had not been discharged. The trade

creditors amount to £5,500. The articles of partnership provide that profits and losses shall be shared equally by the partners. Show how the £12,000 should be distributed.

58.—A., B. and C. agreed to enter into a partnership commencing on January 1st 1897 for the purpose of establishing a new business. The capital was provided as follows: By A. £10,000, B. £7,000, and C. £5,000. It was agreed that interest at the rate of £5 per cent. per annum should be credited half-yearly, on June 30th and December 31st in each year, on the sums from time to time standing to the credit of each partner; accounts to be taken annually, and profits or losses to be divided in proportions of 12, 10, and 8 respectively. On June 30th 1897 A. drew £450, B. drew £75, and C. drew £125. On December 31st 1897, having spent large sums in advertising, the Profit and Loss Account showed a debit balance of £1,000 before debiting any interest on Partners' Accounts, and before debiting a sum of £500 then standing to the debt of a "Preliminary Expenses Account," which the partners decided to write off.

Complete the Profit and Loss Account, open and write up the Partners' Accounts, and show the balance standing to the credit of each on January 1st 1898.

59.—Archer and Burton are partners sharing profits equally. Their capital, as it appears in the books of the partnership on the 30th June 1894 (the date on which they dissolve partnership) is, Archer £2,000, and Burton £500. The total amount

owing by the firm is £5,000, which includes £1,000 due to Archer on Loan Account, and £500 due to Burton on Loan Account. The whole of the assets of the firm realise £6,000.

Prepare accounts closing up the partnership, and show the position in which the partners stand with each other.

60.—M. agreed to take N. into partnership. N. was to bring in £7,000. Of this £2,250 was to be paid for a two-fifths share of M.'s profits, calculated at $1\frac{1}{2}$ year's purchase of their average amount, and the remainder was to be N.'s capital. M. was to leave in the concern one-half of this purchase money to make up his capital to half as much again as that of N. What were M.'s average profits, and what was his capital before the partnership commenced?

61.—The Coal Mine Company, Lim., took a lease of a colliery from G. Risch for 99 years from September 29th 1896 at a ground rent of £50 a year, payable half-yearly, and a royalty of 6d. per ton with a minimum royalty of £80 a year, payable half-yearly. During the first year the company raised 2,500 tons, and during the second year ended September 29th 1898 4,000 tons. The several amounts due to G. Risch were paid twenty-one days after becoming due.

Write up both Personal and Nominal Accounts, and balance them at the end of each year.

62.—Lund & Co., Lim., leased from Lord A. for fifty years from September 29th 1893 certain lands for mining purposes at a

surface rent of £40 a year, and a royalty of 6d. per ton on the minerals raised. The minimum annual payment for royalty was fixed at £200, any deficiency in tonnage of one year to be set off against the tonnage of a subsequent year. During the three years ending September 29th 1896 the quantity of minerals raised was as follows :—

1st year	4,000 tons.
2nd year	9,000 „
3rd year	14,000 „

There was paid to Lord A. on September 30th 1894 £240, and on September 30th 1895 £240.

Make out both Personal and Nominal Accounts from the above figures, and show the balance due to Lord A. on September 30th 1896.

63.—The Western Coal Company enter into a mineral lease of a coalfield for 21 years at a fixed rent of £300 per annum or a royalty of 1s. per ton, in the option of the landlord, the fixed rents being recoverable out of the royalties paid within five years. 400 tons were raised the first year, 2,300 tons the second year, and 37,500 tons the third year. Open and write up the necessary Ledger Accounts to show the position of the fixed rents and royalties at the end of each of the first three years.

64.—A colliery company acquires a lease of a mineral area for a term of 60 years at a minimum certain rent of £500 per annum, merging into a royalty of 6d. per ton on coal worked in periods, each of three years. Assuming the royalties on

coal worked during the first year amounted to £100, in the second year to £400, and in the third year to £700 (leaving £300 of certain rent forfeited), make the necessary Journal and Cash Book entries and post to Ledger Accounts, on the basis of the first two years' rent having been paid at the end of each year, and the rent of the last year being unpaid; showing the proper amount chargeable to Profit and Loss in each year.

65.—On the 1st January 1891 James Fincham became the lessee of a chalk pit on the terms of paying a minimum or dead rental of £1,000 per annum merging in a royalty of 4d. per ton. The output in the year 1891 was 30,000 tons, in 1892 it was 40,000 tons, and in 1893 70,000 tons. Show how you would deal with the royalty and rental in James Fincham's books, the lease providing that dead rent not merged in royalty could be deducted out of future royalty in excess of the minimum, on the footing that James Fincham would, in the course of five years, have increased the output to at least 300,000 tons.

66.—A colliery company hires a hundred wagons on the deferred purchase system over a term of seven years. The rent being payable by quarterly instalments of £200, with an addition for repairs of £2 per wagon per annum. Assuming the Wagon Company's charge for interest on the cash price of the wagons to be at the rate of 5 per cent. per annum, make the Journal entries for the first year necessary to apportion the quarterly payments between capital and revenue.

67.—Applications have been received from A. Jones, of 497 High Street, Plymouth, and E. Smith, of 218 Broad Street, Leeds, for 1,000 shares and 200 shares of £1 each respectively in the Imperial Motor Company, Lim., 2s. 6d. per share having been lodged with the bankers on application. You are required to show the entries in the Applications and Allotments Book for both, Jones' application being accepted and Smith's declined.

68.—The A. B. C. Trading Company have a subscribed capital of £250,000 in 25,000 shares of £10 each. On January 1st 1892 there had been paid up £5 per share. £1 per share was called up on April 1st, £1 on July 1st, and £1 on October 1st. On December 31st the company had an accumulation of profits of £17,000, out of which it is resolved to set aside to Reserve Fund £3,000, and to pay to directors £1,000. At what rate per annum can dividends be paid, having regard to the dates of Calls? Prepare a Dividend Account.

69.—From the following Trial Balance prepare a Trading Account and Profit and Loss Account, and a Balance Sheet:—

On the 30th September 1893 A. B. & Co. opened a banking account, and each partner paid in £4,000. A cheque for £11,900 was drawn and paid to the executors on account of the purchase money, a joint and several promissory note of the partners being given for the balance. Make out a Balance Sheet as on the 30th June 1893, also open and write up in the new firm's Private Ledger the accounts necessary to show the result of the transactions which took place on the 30th of September.

71.—A company formed to acquire an established business issues ordinary capital, £100,000 in £10 shares payable £1 on application, £2 on allotment, and the balance three months after allotment; preference capital £50,000 in £10 shares, payable in the same manner; and £50,000 in debentures of £100 each, payable 10 per cent. on application and the balance on allotment. The whole (other than the shares taken by the vendor) was subscribed, allotted, and duly paid up. The vendors are to receive £100,000, payable as to £40,000 in ordinary fully-paid shares, and £60,000 in cash, such price to include £20,000 for freehold buildings, and £30,000 for stock-in-trade, the balance being for goodwill.

Make Journal entries relating to the issue of the capital and the purchase from the vendors.

72.—The Gold Seeking Company, Lim., on July 1st 1890 allotted to William Hutt, of the Lowlands, merchant, 10 shares of £10 each, numbered 21 to 30 inclusive, upon an

application dated June 20th 1890, Hutt having on that day paid to the company's bankers a deposit of £1 per share. A second £1 per share was payable on July 5th 1890.

On November 25th the company made a call of £3 per share, payable on January 1st 1891.

On July 1st 1891 Hutt purchased from John Benn 20 shares numbered 41 to 60 inclusive, upon which £5 per share had been paid and the transfer was registered on July 15th 1891.

On November 30th 1891 the company made a further call of £5 per share, payable on January 1st 1892.

On 30th August 1893 Hutt sold to Arthur Berry 10 shares numbered 21 to 30 inclusive, fully paid-up, and the transfer was registered on September 13th 1893.

On December 30th 1897 Hutt sold the remainder of his shares, the transfer being registered on January 21st 1898.

Write up the foregoing transactions in the Share Ledger of the company.

73.—The New Auto-Car Manufacturing Company, Lim., purchased certain patents from Morgan & Evans under an agreement dated 15th July 1896 at a cost of £55,000, £5,000 of which was to be paid to the vendors in cash, and £50,000 in fully-paid £10 ordinary shares. The company was formed to purchase and work these patents, and issued to the public capital to the extent of £100,000; £75,000 in £10 ordinary shares (£1 on application; £4 on allotment; and £5 at the

end of three months), and £25,000 in £25 5 per cent. preference shares (£5 on application; £10 on allotment; and £10 at the end of three months). The patents passed to the company according to the agreement on 31st July, which was also the date of allotment. The shares were fully subscribed and duly paid for, the cash being paid direct to the company's bankers. Make the necessary Cash Book and Journal entries to give effect to the above transactions, post to the proper Ledger Accounts, and prove by a Trial Balance the correctness of your entries.

74.—A company was registered on the 1st January 1896. On the 10th February 4,000 shares were allotted, 2s. 6d. per share being due on application, and 2s. 6d. per share due on allotment. On April 30th a first call of 5s. per share was made, and on June 30th a second call of the same amount. Give the Journal entries for recording the above transactions.

75.—Rose & Son dispose of their business to a company for £55,000 upon the following terms, viz.:—

£15,000 in cash.

£40,000 in fully-paid shares.

The assets taken over by the company consist of—

80.—Jones and Robinson are merchants, and on the 1st July 1895, after adding profits for the past half-year, Jones' capital in the firm amounted to £3,000, and Robinson's to £2,000. On the 1st July 1895 they take into partnership their senior clerk Smith upon the following terms, viz., Smith to bring in £500 as capital, and each partner to be credited with interest on his capital at 5 per cent. per annum. All profits (after debiting interest) up to £1,000 are to be shared by Jones and Robinson exclusively, in proportion to the amounts of their capital as on 1st July 1895. All profits in excess of £1,000 are to be shared equally by the three partners. Accounts are to be prepared and profits and interest credited half-yearly. Smith is to be credited with a salary of £200 per annum without reference to profits earned. On 31st December 1895 the Profit and Loss Account (after debiting Smith's

salary, but without charging interest on partners' capital) showed a credit balance of £1,500. The partners' withdrawals, upon which no interest need be charged, were, Jones £500, Robinson £400, and Smith £150. Draw up the partners' separate accounts as they should stand on 1st January 1896.

81.—P., a principal, agreed with M., his manager, and T., his traveller, that if they would each bring £500 into his business he would accept them as equal partners, leaving himself free to retire from active management, on the following conditions:—

M. and T. each to receive £250 a year as salary and 5 per cent. interest on capital, P. to receive 6 per cent. interest on his capital and no salary.

On July 1st 1897 M. and T. paid in £500 each, and an account of assets and liabilities was taken as on that date, and a Balance Sheet prepared, as set out below, showing the amount of P.'s capital, which was agreed to by all partners.

Write £400 off the Leasehold and make up Profit and Loss Account and Balance Sheet.

83.—A., B., and C., carried on business in partnership, the capital of the partners on the 1st January 1893 being A. £20,000, B. £5,000, and C. £2,000. It was agreed that each partner should be credited annually with interest on his capital at the rate of 5 per cent., and B. and C. each with £200 as salary for their services. The net profits or losses were to be divided into nine parts and allotted to A. 5, B. 3., and to C. 1.

The assets and liabilities on the said date were as follows :—

Freehold Premises	£15,000
Plant and Machinery	6,000
Loose Tools and Fittings	1,500
Debtors' balances	9,000
Less provision for discounts		£400	
and for Bad debts	...	100	
Cash at Bank	2,000
Creditors' balances	6,000

In December 1895 A. died, leaving the whole of his interest in the business to B. and C. in equal shares. No account of profit and loss had been taken, or valuation of stock made, during that period.

The partners' withdrawals (including interest thereon) during the three years had been as follows, A. £3,500; B. £900; and C. £600.

On 31st December 1895 a valuation of the assets was made for the purposes of probate, and the adjustment of the surviving partners' accounts. The assets so valued were as follows:—

Freehold Premises	£11,000
Plant and Machinery	4,500
Loose Tools and Fittings	1,000
Debtors' Balances	10,500

in respect of which an allowance was made of £1,000 for discounts and bad debts. There was cash at bank £1,060, and in hand £6 17s. 6d. The amount due to creditors was £9,000.

Write up the partners' accounts and prepare two Balance Sheets on 1st January 1893 and the 31st December 1895 respectively.

84.—M. and N. being equal partners agree to dissolve, and the following is their position:—

They owe creditors £960, they have debtors £3,600, and office effects £200. M. is to realise the debts, to pay the liabilities, to take over the office effects at £180, to allow N.

£500 for his share of goodwill, and to pay him his proportion as realised. The debts realise less by £80, and after payment of creditors they are realised at an average date of six months from the date of dissolution. M. pays N. £1,000 at the end of three months, and the balance at the end of twelve months, with interest at 5 per cent. per annum. What must he then pay?

85.—W. J. in retiring from business agrees to dispose of it to C. H. and H. C. The assets consist of:—Debts £5,600, stock £3,800, and plant £2,400; and the liabilities, which are to be discharged by the successors, are £3,800. They bring in as capital £1,500 each, and the balance due to W. J. is to be subject to interest at 5 per cent. per annum, and to be paid by instalments of £500 each half-year. They are also to pay £1,000 for goodwill out of the profits at the rate of one-fifth of the profits each half-year without interest. The profits have been as follows:—

					£
1st half-year	860
2nd „	980
3rd „	1,060
4th „	1,200
5th „	1,080
6th „	1,240

From which the interest on unpaid purchase has to be deducted before calculating the one-fifth. State the Goodwill Account up to its extinction.

86.—A limited company whose position was as under :—

<i>Dr.</i>						£
Capital issued 15,000 shares of £10	150,000
Less Calls in arrear	7,500
						<u>142,500</u>

						<u>£160,300</u>

Obtained the consent of the Court to a reduction of its capital by making each £10 share into a £5 share in order that its debit on its Profit and Loss Account might be written off and the expenditure on Capital Account reduced.

Prepare revised Balance Sheet, giving effect to the reduction.

87.—The firm of D. J. & P., whose Balance Sheet follows, decided to form their business into a limited company. Of the profits D. took four-eighths, J. three-eighths, and P. one-eighth. They arranged with O., a promoter, that he should purchase the concern for the sum of £150,000, to be paid as to £40,000 in shares of a company to be formed with a total capital of £225,000 in £5 shares, and as to the balance in

cash, the company to take over all the assets and adopt the liabilities other than those to cash creditors. The promoter agreed to sell to the X. Y. Company, Lim., for £125,000 in cash and £40,000 in shares; he to bear as between himself and the company all the preliminary expenses. But as between him and the vendors, the latter to bear the costs of conveyance, amounting to £800.

Show what would be the effect of this arrangement to each of the partners, they taking the shares coming to them in proportion to their interest in the profits, and prepare a Balance Sheet of the company on its commencing business as from the 31st December 1896, it having taken over the assets and liabilities as above-mentioned at the sums appearing in D. J. & P.'s Balance Sheet, the whole of the capital being subscribed in cash, except the £40,000 reserved for the vendors under the contract of purchase and sale, and the promoter having been paid the purchase price.

Make the necessary closing and opening entries in the books of the purchased and purchasing companies respectively.

89.—Hugh Brett is a contractor, and his tender to construct a harbour for a fixed sum has been accepted.

Raise the necessary accounts in his books, and make a few entries to show the working. What is wanted is to give a clear idea of his position at any time, and the expenditure upon work in progress. Show how you would construct a Balance Sheet *ad interim*, that is, before the conclusion of the work.

Certain matters have to be borne in mind :—

- (a) Stores and materials may not all be used.
- (b) Plant, &c., not actually used in construction, but for the purpose of conveying the material to the works;
Plant and machinery used for construction.
- (c) Depreciation of this plant and rolling stock.

(d) Sums received on account, upon production of engineer's certificate.

(e) Proportion of general charges, where for instance this is only one of several contracts.

90.—A client who is a retail jeweller is desirous of establishing a complete check upon his stock, what system would you institute, it being understood that every article must have a registered number?

You are required to sketch an example of the system you would recommend, and to furnish full definitions of the mode of procedure for carrying the same into practice.

91.—The "B." Company goes into voluntary liquidation on 30th September 1897. Its assets appear in the books as follows :—

Cost of Properties	£150,000
Liquid Assets	12,000

Its liabilities are £25,000, and its capital (fully-paid up) £200,000. The assets are sold to the "C." Company, Lim., for £100,000, payable in shares of that company of £1 each, credited with 16s. 8d. per share paid, and £30,000 in cash, which just suffices to pay the liabilities and liquidation costs. Close the books of the "B." Company.

92.—Show the opening entries in the books of the "C." Company (*vide* previous question).

93.—A firm of contractors start business with the following contracts, viz. :—

1. To build a bridge.
2. To make a road.
3. To construct a railway.
4. To re-build a house.

Draw up a set of accounts for each contract—a few specimen items will suffice to show the working—and detail the books of original entry from which the items are obtained.

94.—J. L. and W. D. enter into what may be termed a limited partnership for the purpose of buying at sales any railway rolling stock or machinery which could be obtained at a price cheap enough for a speculation, and sharing the risk—this being quite apart from their own proper businesses, in which they have no connection with each other. Sometimes one buys, sometimes the other, but disbursements and sales are made indifferently, including the receipt of money on account of the sales. There is no joint fund or bank account, but each works the individual transactions through his own business. The following transactions are recorded, and you are required to raise accounts for both parties and show the completion and agreement of same, including the equal division of profit or loss, and the balance carried to a general account. Five per cent. per annum on all cash received or paid.

Jan. 1.—J. L. buys locomotive for £500.

„ 12.—J. L. pays cost of transit, £10.

- Mar. 16.—W. D. pays rent for same, £1 6s. 8d.
,, 18.—W. D. pays insurance, 10s.
June 1.—W. D. pays repairs, £10.
,, 30.—W. D. sells locomotive for £560.
July 2.—W. D. buys 500 tons rails at £3 per ton.
,, 30.—J. L. pays freight and landing charges, £25.
Aug. 30.—J. L. pays rent, £2 5s.
Sept. 1.—W. D. sells same at £3 5s. per ton.
,, 6.—J. L. buys two cranes, £50 each.
,, 12.—J. L. sells same for £108.

Show how affairs stand on October 1st.

95.—H. B. has the following transactions with his broker, F. D., on the London Stock Exchange.

On July 17th he buys £20,000 Mexican Ordinary at $45\frac{1}{2}$, July 20th he buys £10,000 South Eastern at $29\frac{3}{4}$, July 22nd he buys £10,000 North Western at $68\frac{1}{4}$, July 23rd he sells £10,000 South Eastern at 32.

On the first three transactions the broker charges a commission of $\frac{1}{8}$ per cent. At the close of the account H. B. carried forward the Mexican Ordinary and North Western Stock at $45\frac{3}{4}$ and $68\frac{1}{2}$ respectively, contango being charged at $\frac{1}{8}$ on each stock. State H. B.'s account in F. D.'s Ledger.

96.—The SS. *Barry*, managed by Messrs. Garth & Co. on behalf of her owners, started on May 1st 1894 on her ninth voyage, sailing from Cardiff to Hong Kong, Nagasaki, Halifax, and Quebec, thence to Liverpool. Her eighth voyage ended

with a balance to credit of £104 14s. 2d., which was brought forward to the ninth voyage. She earned the following freights. On coals to Hong Kong £2,641 17s., on sugar to Nagasaki £1,800 0s. 4d., on silk to Halifax and Quebec £8,344 18s., on timber Quebec to Liverpool £3,030 0s. 4d. She arrived at Liverpool on November 30th 1894. During her voyage the wages in connection with it amounted to £1,523 13s., the coal bill to £2,220 17s. 9d. The premiums on her general insurances were at the rate of £2,400 per annum, and for leaving Quebec late in the season there was an extra insurance payable of £368 11s. The insurance on freights and protecting clubs amounted to £318 17s. for the round voyage.

The port charges and disbursements, including stores, were as follows:—At Cardiff £873 12s. 6d., at Port Said outwards £1,205 3s. 10d., at Hong Kong £529 4s. 2d., at Nagasaki £645 6s. 10d., at Hong Kong return £51 6s. 11d., at Aden £8 12s. 2d., at Port Said return £1,224 4s. 7d., at Gibraltar £45 6s. 10d., at Halifax £451 2s. 8d., at Quebec £294 0s. 4d., at Sydney (coal bill) £43 9s., at Liverpool £826 8s. 9d. Management commission amounted to £1,115 17s. A balance of £207 15s. 6d. was carried to credit of next account. Prepare the Voyage Account and show what was divided amongst the owners.

97.—The SS. *Barry* having made nine voyages with the following results respectively—

prepare the ship's Profit and Loss Account, showing what each owner will have received, there remaining undivided, as stated in the preceding question, £207 15s. 6d. There were six owners, A. with 10 shares, B. with 14 shares, C. with 8 shares, D. with 12 shares, E. with 4 shares, and F. with 16 shares.

98.—An Investment Company on December 1st 1897 bought £10,000 4 per cent. debentures of W. & Co., Lim., at £95 per cent., and paid a commission thereon of 15s. per cent. to cover all expenses. Between December 1st and 30th 1897 they sold and received payment for £7,000 of the debentures at par, and there were further buyers at £99 per cent.

The purchase money of £10,000 was provided by the sale of £8,850 of $2\frac{3}{4}$ per cent. Consols, part of £20,000 Consols which had been purchased and stood in the company's books at £110 per cent.

Set out in the Ledger Account with W. & Co., Lim., the transactions in the debentures, also show in the Consols Account the entry of the transaction therein, and write up

the Profit and Loss Account so far as it is effected by these transactions.

99.—Provide for the undermentioned depreciations and prepare a Revenue Account only from the following Trial Balance. A call of £1 per share was payable on the 31st December 1892, and arrears are subject to interest at 5 per cent. per annum.
